GRADUATE FACULTY COUNCIL
Academic Policy Committee
Final Report (2019-20)

The Academic Policy Committee of the Graduate Faculty Council was charged with: 1) recommending a policy related to transfer credit; 2) addressing clarity in the Minor policy; and 3) reviewing past and current leave of absence policies to make a recommendation for such a policy.

Transfer Credit
The focus is on transfer credit from a Master's degree toward a PhD. In accordance with the UGS Bulletin guidelines, courses transferred from other institutions must be graded B or higher and are subject to 30 credit hour limit for the PhD. To date, current practice (not a formal policy) has allowed *all* master's degree credits to be applied toward their cognate PhDs, and the application of master's degree credits toward non-cognate PhDs has been limited to 30 credits. This has allowed up to 30 hours of Master's degree toward PhD and work counted toward the PhD will be counted if it has been approved by the student's advisory committee (e.g., if Master's requires 36 credit hours and if cognate, allow all 36 credit hours).

The concern is the lack of clarity over the practice of "cognate" in application of master's degree credits toward the PhD. At IUPUI, a 30-credit limit is always applied to the transfer of master's hours toward the PhD. In addition, IUPUI's UGS is not in favor of increasing the number of credit hours allowed for transfer due to the lower number of didactic courses many of their degrees involve. The "cognate vs. non-cognate" discussion has not been in practice at IUPUI since they simply enforce a 30-credit limit.

Eliminating the term "cognate", relying on formal policy rather than current practice, and generating a straightforward policy would bring clarity to the requirements for both doctoral students and faculty.

New Policy: "No more than 30 credit hours can be transferred toward a PhD degree. Courses must be graded B or higher." This APC recommendation was approved with unanimous GFC support.

Minor Policy
Concerns were raised in the January 2020 GFC meeting regarding the term "department" and the clarity of the Minor policy. There was no question of whether a Minor should be required, but rather whether the policy is appropriately enforced. Therefore, the APC was charged with assessing the current policy, and determining whether wording for the policy should be changed. The current policy for the Minor (for a PhD) according to the UGS Bulletin:

> The student will select at least one minor subject. A minor provides additional breadth and depth to the individual's program. It must be taken outside the major department from among those minors offered listed in this bulletin or in a specifically approved inter- or intradepartmental area —see departmental entries. (As an exception to this rule, Indiana University doctoral students may take a minor in a Purdue University graduate degree program at Indiana University-Purdue University Indianapolis [IUPUI].) Courses counted toward a minor cannot also be counted toward the major. The determination of the minimum requirements and examination procedure

(if any) for the minor is entirely at the discretion of the minor department or program. In certain cases, special individualized minors (12 or more credit hours of work in two or more programs) or minors not specifically listed in this bulletin may be approved by the dean upon recommendation of the student's advisory committee, provided such approval is requested prior to pursuit of any of the proposed courses of study. Examination procedures (if any) or other requirements (for example, stipulation of the minimum grades acceptable) should also be specified in the proposal to the dean.

The underlying concern is the requirement that the minor "must be taken outside the major department". After extensive discussion, we found several challenges with recommending new wording that would help to clarify the policy. Importantly, many programs today house several different departments. Therefore, use of "department" or "program" creates issues depending on the discipline. It is possible that using the term "Major discipline" would help to identify the purpose of the minor, but it may not eliminate concerns over clarity. There was full GFC agreement that use of the term "department" or "program" would be too restrictive.

The APC suggests new wording for the Bulletin (in italics). However, we also recommend further discussions to help clarify the policy.

> The student will select at least one minor subject. *A Minor is meant to provide additional breadth and to complement and enhance the value of the Major. The Minor must be distinct from the Major – courses counted toward a minor cannot also be counted toward the major, and the courses must be taken outside the major discipline from among the* specifically approved minors listed in this bulletin. (As an exception to this rule, Indiana University doctoral students may take a minor in a Purdue University graduate degree program at Indiana University-Purdue University Indianapolis [IUPUI].) The determination of the minimum requirements and examination procedure (if any) for the minor is entirely at the discretion of the minor department or program. In certain cases, special individualized minors (12 or more credit hours of work in two or more programs) or minors not specifically listed in this bulletin may be approved by the dean upon recommendation of the student's advisory committee, provided such approval is requested prior to pursuit of any of the proposed courses of study. Examination procedures (if any) or other requirements (for example, stipulation of the minimum grades acceptable) should also be specified in the proposal to the dean.

Recommendation: In addition to the italicized changes above, which the APC believes clarifies the purpose of a Minor, further discussions should be held to help clarify wording of the policy. One option is to include: "courses cross-listed within both the major and minor cannot count toward the Minor requirement" though this may prove onerous to determine cross-listed courses. A separate option is to include: "Faculty from the Major department may not serve as the representative for the Minor" though some faculty hold joint appointments depending on their expertise. Additional discussions may reveal additional options to consider.

Leave of Absence
The APC was also charged with reviewing past and current leave of absence policies and with making a recommendation for a graduate student leave of absence policy. We found that the Leave of Absence policies for graduate students varies across campuses and schools. We also found that while several schools do not have a formal leave policy, other schools have a formal leave that varies is degree of detail.

Given the financial implications of a leave of absence policy for graduate students, the APC believes that the GFC should not set a uniform Leave of Absence policy. Instead, the APC recommends that the GFC set a policy on leave of absence that outlines the areas that must be covered in a schools' leave of absence policy for graduate students. From our initial assessment, the APC recommends that the policy consider including:

- Appropriate reasons for a leave of absence
- Eligibility
- Duration allowed
- Academic and financial ramifications
- Procedures for requesting and initiating leave (and leave approval process)
- Procedures for returning from leave

Recommendation: The GFC should not set a uniform Leave of Absence policy, but instead set a policy that each school's leave of absence policy must cover specific areas in its policy. These areas have yet to be formally adetermined.

Topics for Next Year
- Further discussion and recommendation to clarify wording in the Minor policy.
- Finalize policy for Leave of Absence.

Respectfully submitted,

Rebecca J. Slotegraaf, Chair
William Allegrezza
Margaret Bauer
Edwina Helton

Hello everybody,

In academic year 2019-2020, the Awards Committee judged three rounds of competitions:

• the Distinguished Master's Thesis Awards, where we received seven theses and chose two winners each in humanities and life sciences from IU Bloomington and IUPUI;
• the Wells Fellowship, where we selected two winners from 15 nomination packets;
• and the Edwards Fellowship, where we chose three winners from eight nominations.

This committee's workload was formidable with deadlines coming due mid-semester or at the end of the term. Yet what was gratifying was the knowledge that these awards likely made a tangible difference in students' lives and also that our committee pushed to make as many awards as was fiscally possible.

The Wells and the Edwards Fellowships, in particular, honor students whose research or creative activity contribute to IU's efforts to put principles of diversity into action. And some of these projects also contributed to the well-being, particularly of students of color. We would like to highlight this important work here:

Nelson Zounlome (Education > Counseling and Educational Psychology), a Wells Fellowship recipient, embodies the criteria of academic excellence and devotion to service of the late Chancellor. In research, he has published or co-authored nine articles (three as first authors), and his work has been supported by numerous prestigious awards, such as the Ford Foundation Pre-Doctoral Fellowship. His emphasis is race-based trauma and healing. He co-founded the Black Joy Collective, a support group for Black students, faculty, and staff, and chaired the Black Women's Wellness and Empowerment Summit, which featured eleven invited speakers. He also served as the co-chair for the Counseling Psychology Student Organization, which sponsors a weekly writing group for students, which has resulted in five manuscript submissions and four grant submissions. He has developed webinars on topics like "Navigating Racism" and "Discrimination in Academia." Over the last four years, while maintaining a record of distinguished academic achievement and engaging in considerable service, he has also provided 15-20 hours of counseling a week. Mr. Zounlome won the Paul Munger Award (top honor) from the Counseling Department and the Leading the Way Diversity and Inclusion Award.

Jelani Ince, also a Wells recipient, is already publishing influential and highly cited studies on the development of the Black Lives Matter movement through social media (through analysis of 65K tweets) and campus activism (three first authored papers). His current research focuses on churches as a model system to uncover challenges to racial integration. He is currently a Visiting Scholar at Washington University in St. Louis, and for his influential research he has won a Ford Dissertation Fellowship. As co-president for the Graduate Student Orientation, he initiated diversity training for faculty and graduate students. His work with the GSPG increased bus access to students. As emissary for Graduate Student Diversity, he has demystified "hidden curriculum" for URM students pursuing academic careers. His work with his department established a Students of Color Coalition to connect students of color among cohorts through a variety of activities earning him a Mentor of Year Award recognition. At the community level, he has engaged in dialogue with a racial justice group (Cultivate), raised awareness and mentored undergraduates at the Poetry Slam at the Bishop, created writing seminars through the Bloomington Writers Guild. In St. Louis, he joined a non-profit (Freedom Arts) to encourage young black youth to perform art in public, has spearheaded numerous efforts at increasing equality in the justice

system, and used research methods to train volunteers to study hearings – to be reported to city officials.

Velarie Yaa Ankrah Ansu, an Edwards Fellowship recipient, is a doctoral candidate in Health Behavior in the School of Public Health. She's the third author on a peer-reviewed journal article, and last year was selected as a Visiting Scholar to the Universidad de la Salle, in Bogotá, Colombia, where she taught students about working within communities to make change possible, even with limited resources, and also about community-based health care. Importantly, she provided content, assisted editors, and managed emails as weekly editor of the *Obesity and Energetics Offering*, an e-service that has a subscription of 120,000.

Shanalee Gallimore, also an Edwards Fellowship recipient, who's working on a doctorate in Education, Policy, and Leadership, is an organizer of Black Women's Empowerment conference and has acted as a crucial liaison between the Banneker Community Center and the Black Graduate Student Association (BGSA). In that latter role, she put together a week-long summer program for Banneker teens to work with IU faculty, as well as creating a Diversity Toy and Book Drive. What's more, BGSA helped Banneker secure a recent grant to renovate its facility. Gallimore also worked for the STEM Summer Scholars Institute and the organization I CAN PERSIST to recruit more young women of color to science and tech and to provide crucial mentoring. Finally, she has supervised IU undergraduates who have mentored middle and high school students as part of the Serve Indiana Kids program that's part of the Center for P-16 Research and Collaboration. She received 2019 leadership awards from I CAN PERSIST and BGSA.

Cheyna Galloway, an Edwards recipient, is a second-year law student, who received recognition for Brief Writing and Oralist arguments and is an Indiana Law Journal associate. A member of the Phi Alpha Delta Law Fraternity and peer-elected representative to GPSG, Galloway is the founder and former president of To Write Love on Her Arms, a suicide prevention nonprofit, and in that role, she visited high schools to provide outreach, educating students about treating anxiety and depression. She also led a food and clothing drive for youth aging out of the foster care system in part by engaging in "extreme couponing" and organized a donation drive at a local church to increase donations of shoes to Operation Christmas Child. A first-generation college student, Galloway is committed to using her legal education to benefit her community, with a special devotion to children in foster care.

We were honored to support these students whose research and activism have been transformative.

Best,

Karen Kovacik
Professor of English, IUPUI
Chair, Awards Committee

Graduate Faculty Council 2019-2020
Diversity, Equity, and Inclusion subcommittee report

Stacie King (chair), Dominique Gall, Dena Carson, Gloria Preece, Benjamin Perrin, Massimo Ossi, Lucas Adams (student member, ex-oficio), Beas Bhattacharya (student member)

The Diversity Issues subcommittee was tasked with three items of business for the 2019/2020 academic year, in line with tasks that remained pending from last year and this year's strategic goals.

1) <u>Change the name of the committee from Diversity Issues Committee to the Diversity and Inclusion committee</u>. This involved determining that we would need a Graduate Faculty Council approval of the name change and only the Graduate Initiatives Committee can propose changes to the bylaws. We made a recommendation to the Graduate Initiatives Committee in March 2020 to change the name of the subcommittee to the Diversity, Equity, and Inclusion subcommittee, and included a file with the relevant sections of the bylaws that needed to be changed. The name change was brought to a vote at the March 23 meeting and was approved.

2) <u>Gather data to identify financial issues or challenges that may be unique to graduate student from underrepresented groups</u>. We felt that the work accomplished by last year's College Graduate Office Taskforce on Graduate Student Funding highlighted many of the most critical and burdensome financial issues that all graduate students at IU face, including low stipends (arguably the lowest of the Big Ten), high fees, and charging "unremittable fees." The College's decision to eliminate unremittable fees starting during the Fall 2020 semester was a major step in the right direction, and their efforts to improve stipends across campus have already had a significant impact. In addition, the IUB Indiana Grad Worker's coalition and their efforts to end mandatory fees have been effective in highlighting other areas of concern related to graduate student funding on the IUB campus. Their actions do more in immediate terms than any data collection efforts that this subcommittee could produce. In addition, and perhaps most importantly, the University Graduate School has been planning to implement their own university-wide survey on graduate student funding. This survey would have allowed us to consider the unique financial challenges that underrepresented students face in paying for, attending, and completing graduate degree programs. We are disappointed that the implementation of this survey has been delayed. We would like to urge the UGS to continue its efforts to collect these data, so that GFC members could use the results to consider meaningful steps to help the financial situations of graduate students, including those of underrepresented students.

3) <u>Review recruitment and attrition data for graduate students from underrepresented groups</u>. The chair of the committee made several attempts to contact relevant offices on the IUB campus to see what kinds of data were available on URM graduate student recruitment and attrition, but was unable to make headway on this topic. It seems that in most cases, the data are anecdotal. Staff turnover in the University Graduate School led to delays in figuring out the right staff person to talk to. Nan Harvey is the contact person in the University Graduate School who would be able to develop the queries related to recruitment and attrition. The committee suggests that next year's committee work with her to better understand the UGS data and to explore existing demographic data on URM representation, retention, and degree completion. Similar steps will need to be taken at satellite campuses.

Summary of Graduate Initiatives Committee Activities (Fall 2019-Spring 2020)

Chair: Scott Shackelford

Members: Mary Waldron, Diane Wille, Larry Moss, Frederick Pavalko

The Graduate Initiatives Committee (GIC) considered three primary issues over the course of the 2019-20 Academic Year. These included: (1) graduate student financial health, (2) graduate student mental health, and (3) amending the GFC bylaws to better reflect our diversity goals, and to ensure that graduate student voices are well represented.

Graduate Student Financial Health

The committee was asked by Vice Provost Daleke to review and advise on a survey of financial questions geared to assess graduate student funding and wellbeing across IU-Bloomington. The members focused on an array of issues embedded in the survey, from ensuring that the questions consider the diverse ways in which students fund their students, to providing for sufficient outlets to disseminate results. UGS took these suggestions on board, put the survey through IRB approval, and fielded it in March 2020.

We were also asked to compile tuition and fee information across academic units at IU-Bloomington and the regional campuses. We located this information (attached here as Appendix A), which will help couch the findings from the financial aid survey.

Mental Health Task Force

The GFC received approval from Dean Wimbush to organize a taskforce specific to graduate student mental health, which the GIC convened. The task force is supposed to both consider better ways to ascertain and respond to the current state of graduate student financial health especially in light of the COVID-19 pandemic, and come up with a suite of options to better address these challenges such as by ensuring that IU resources are utilized effectively to positively contribute to graduate student wellbeing.

Task force members include:
- Yves-Marie Ambroise
- Stephanie Cunningham
- Abby Brenner
- Elizabeth Swallow
- Rachel Coudret
- Tabitha Hardy
- Hamilton Abegunde
- Katherine Kearns
- Amy Holtzworth-Munroe

- Ellen Vaughan
- Sullivan, W. Patrick
- Denise Hayes
- Beth Taylor
- Patrick Quinn
- Jennifer Essig

Amendments

The GIC was also asked to review possible amendments to the GFC bylaws to help ensure that they effectively meet UGS goals, as well as those of the graduate students and faculty. To that end, the GIC voted on and recommended:

- **Diversity**: A name change of the diversity subcommittee to "Diversity, Equity, and Inclusion" to better reflect its scope and mission.
- **Graduate Student Voting**: Provide graduate student representatives on GFC committees the right to vote on committee matters.

Going forward, we would suggest that the GIC remain engaged with disseminating the results of the Graduate Student Financial Aid survey in collaboration with UGS, and to consider whether a similar survey should be conducted with the professional schools, and perhaps at the undergraduate level.
